Education

System Engineering, University of the Bundeswehr Munich
Industrial Engineering, TU Dresden
Organisational Consulting, TU Kaiserslautern

Certified Software Architect (iSAQB)
iNTACS Provisional Assessor Automotive SPICE

Project Experience

Safe object detection, industrial robotics

2026
System Safety Engineer · PL e / SIL 3

Built an MBSE architecture framework, piloted on safe object detection. **Successful TÜV audit of STPA hazard analysis and safety concept.**

Infotainment and driver assistance

since 2025
Software Safety Engineer and Safety Coach · ASIL A to D

Designed the software safety architecture from chip to hypervisor, using STPA. **OEM confirmed a “significant improvement of the safety concept”.**

Electric axle and its subsystems

2016 – 2024
System Safety Engineer and Safety Manager · QM to ASIL D

Coordinated safety for unintended acceleration, HV and thermal hazards. **Several series releases with passed safety assessments and an approved safety case.**

Embedded software consulting

2012 – 2016
Employed consultant · most recently Vector Consulting Services

Piloted and introduced ISO 26262, Automotive SPICE, project management and QA. **Led clients to Automotive SPICE Level 3, set up a PMO and a safety dashboard.**

Skills

GET IN TOUCH

Standards and regulations

ISO 26262 **ISO 21448 (SOTIF)** **ISO 13849**

Supplementary: IEC 61508, EU Machinery Regulation 2023/1230, ISO 6469, ISO/PAS 8800, Automotive SPICE, INCOSE / SEBoK

Systems engineering methods

MBSE (SysML/UML) · Safety concepts (FSC/TSC) · Partitioning and decomposition · nFR optimization

Safety analyses

HARA · STPA · FMEA · FMEDA · FTA · SOTIF analysis

Technical safety management

Safety planning, lifecycle tailoring, impact analysis, release management

Tools (user level)

DOORS, Polarion, Codebeamer, IBM DNG/RTC/RQM, PTC Integrity, Medini, APIS IQ, Isograph, Enterprise Architect, Rhapsody, Jira/Confluence, git, Python, Claude Code

Languages and location

German (native), English (fluent)
Based at Lake Constance, working worldwide
